

**COUNTY OF AMADOR
TRANSPORTATION AND
PUBLIC WORKS
STATE OF CALIFORNIA**

2025

**MAINTAINED MILEAGE
ROAD LIST**

Amador County Maintained Mileage List

Supplemental Information

Road Functional Classification Legend:

- MJC = Major Collector
- MNC = Minor Collector
- UBC = Urban Collector
- RMnA = Rural Minor Arterial
- Local = Local Road

Key Details:

1. Discrepancy between the Maintained Mileage List and the California Road System (CRS) Map:

- FC = Functional Classification
- The functional classifications listed for each road in the Maintained Mileage List may not always align with those on the CRS map.
- In case of a discrepancy, the CRS map supersedes the Maintained Mileage List.
- The CRS map is used to determine funding sources based on road classifications.
- The CRS map can be viewed at the following link:

<https://caltrans.maps.arcgis.com/apps/webappviewer/index.html?id=026e830c914c495797c969a3e5668538>

2. Road numbers in the 5000's:

- These roads are located within a Community Service Area (CSA).

3. County inspection areas only

- Roads with an asterisk (*) after their name are designated for inspection by the Department of Transportation and Public Works.
- This designation (*) is significant due to a road maintenance agreement with the City of Ione. Per agreement, Amador County conducts the inspection and the City of Ione completes the work.

4. Shenandoah Road (E 16):

- County route E 16 begins in Plymouth and continues beyond Amador County to El Dorado County ending in Pollock Pines. Amador County maintains this road outside of the City of Plymouth limits to the El Dorado County line. County route E 16 is part of the California Route Marker Program.
